NOWRDC has awarded $31 million to 46 different projects in the following 7 technical categories:

1. Supply Chain and Logistics
2. Electrical Power Systems
3. Operations and Maintenance and Safety
4. Environmental and Conflicting Use
5. Wind Resource and Site Characterization
6. Floating Structure Engineering
7. Fixed Structure Engineering

Established in 2018, the National Offshore Wind Research and Development Consortium (NOWRDC) is a nationally-focused, not-for-profit, public-private partnership dedicated to managing industry-focused research and innovation to reduce the levelized cost of energy (LCOE) of offshore wind in the U.S. while maximizing other economic and social benefits.
NOWRDC provides over $1.1m in total funding to a University of Delaware project executing offshore wind research and development in the State of Delaware.

**University of Delaware**  
*Subcontracting with RCAM Technologies*  
*A Low-Cost Modular Concrete Support Structure and Heavy Lift Vessel Alternative*  

**Project Start:** March 2020  
**Length of Project:** 18 months  
**Total Funding:** $1,100,000
