

# NATIONAL OFFSHORE WIND

RESEARCH & DEVELOPMENT CONSORTIUM

Established in 2018, the National Offshore Wind Research and Development Consortium (NOWRDC) is a nationally-focused, not-for-profit, public-private partnership dedicated to managing industry-focused research and innovation to reduce the levelized cost of energy (LCOE) of offshore wind in the U.S. while maximizing other economic and social benefits.

## NOWRDC advances the U.S. offshore wind industry through:

High-Impact Research & Development

Building strong networks connecting technology innovators, investors, and industry

NOWRDC has awarded **\$31 million** to 46 different projects in the following 7 technical categories

I Supply Chain and Logistics

II Electrical Power Systems

III Operations and Maintenance and Safety

IV Environmental and Conflicting Use

V Wind Resource and Site Characterization

VI Floating Structure Engineering

VII Fixed Structure Engineering

# NATIONAL OFFSHORE WIND

RESEARCH & DEVELOPMENT CONSORTIUM

*In New Mexico*

NOWRDC provides over \$2.4m in total funding to a project conducting offshore wind research and development in the State of New Mexico.

## **Sandia National Laboratories**

*Subcontracting with  
Stony Brook University*  
Computational Control  
Co-design Approach  
for Offshore Wind  
Farm Optimization
